## COMUNICADO DE IMPRENSA

Lisboa, 11 de maio de 2016

### **La Commission propose l'ouverture des négociations avec le Nigéria sur un accord de réadmission**

Aujourd'hui la Commission européenne propose l'ouverture des négociations avec le Nigéria sur un accord de réadmission. Cet accord vise à assurer que les processus d'identification et de retour au Nigéria de ressortissants nigériens qui n'ont pas le droit de rester dans l'Union européenne, soient rapides et efficaces. Un tel accord respectera les droits de l'homme et assurera que les obligations de l'Union européenne et le Nigéria sous le droit international tel que la Convention de Genève soient pleinement respectées. Dans son [Plan d'action de l'UE en matière de retour](#) du 9 septembre 2015, la Commission européenne s'est engagé à ouvrir de nouvelles négociations sur des accords de réadmission avec des pays d'origine clés. L'article 13 de l'accord de Cotonou engage également les contractants à négocier de tels accords sur demande. La recommandation de la Commission doit maintenant être adoptée par les états membres du Conseil pour que la Commission puisse commencer les négociations avec le Nigéria.

### **Commission makes justice decisions more accessible to citizens, businesses and law professionals**

As part of continuous efforts to make justice more accessible, the European Commission has today launched a new case law search engine on the European [e-Justice Portal](#). Since 2010, this Portal guides citizens, businesses and law professionals through justice procedures both at EU and national level. For instance, the portal helps them find a lawyer or understand how they can access to courts in any Member State. The [European Case Law Identifier](#) (ECLI) search engine will now allow citizens, businesses, legal practitioners and academics to find information on case law published by national and international courts and tribunals more easily. By having easy access to previous cases, they will be able to see how similar situations were treated on previous occasions and use this information for their own cases. The search engine provides access to around 4 million case law decisions from the Court of Justice of the European Union, the European Patent Office, and 7 Member States: France, Spain, the Netherlands, Slovenia, Germany, the Czech Republic and Finland. The search engine is available in all official EU languages except Irish and users will be able to search by

keywords, country, court and date of decision among other things. More information on the European Case Law Identifier search engine is available [online](#).
